

LOGISTICS
Think Forward.

We'd like you to become our next raving fan.

Just as your company is different from your competitors, so are we.

The difference is we tailor durable, common-sense solutions that work to meet your unique needs. We have been pleasing our clients since 1977 by doing just that.

The first question we ask is "What can be improved?" Whether it's communication, e-commerce, better on-time rate, or global multi-modal options—first we listen. Only then do we deliver solutions for you.

Let's figure out a winning formula together!

Sincerely,

Mike Ellis
President

Think Forward.

THE ANTIDOTE TO THE MEGA-CARRIERS

Since every company has unique shipping requirements, we tailor our freight forwarding services to fit the specific challenges that face your business every day. Large or small, we go the extra mile for every client, and spend time and energy focusing on the little details that are so important to you, our customer.

Our company is comprised of specialists in every area of the transportation industry, and we offer businesses a single freight forwarding resource that can meet any shipping need. We simply don't believe in a one-size-fits-all mentality: when the mega-carriers say no, we say absolutely yes!

EA LOGISTICS: Think Forward.

Technology

CUTTING-EDGE IT & COMMUNICATION

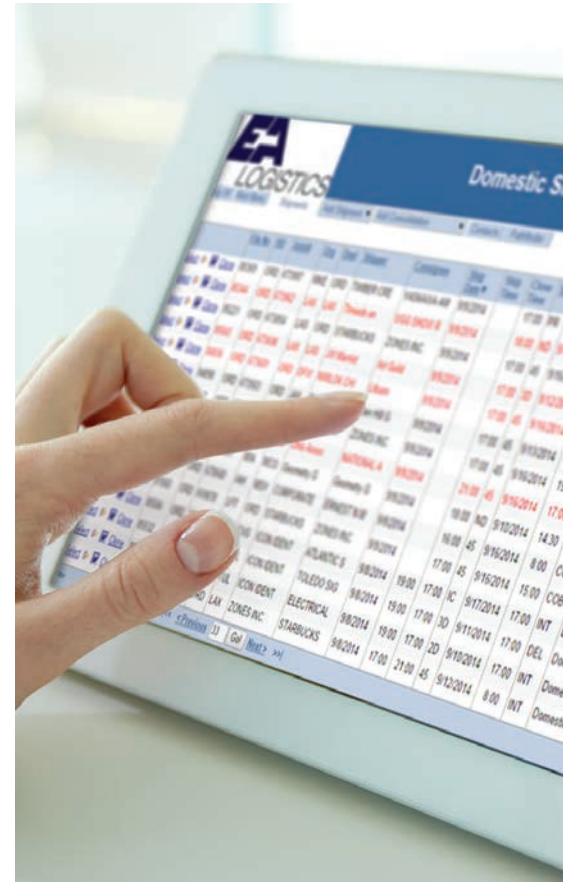

Utilizing our proprietary TMS and WMS systems can improve your organization's speed, efficiency and customer satisfaction. Our common-sense systems can give you and your team seamless visibility into orders across our entire service offering – from Domestic & International to Warehousing & Fulfillment.

This gives you the ability to quote, book and track shipments, see inventory levels by item, pull orders and give your clients immediate answers at the moment they need that information. Our excellent implementation program helps you start off on the right foot!

The human touch is our hallmark. Whether you need to talk to a real human being live, or have an email exchange about a specific question or topic, our veteran support staff is responsive and always available with accurate and timely information. Some situations require creative solutions, this is our strength.
