

Retail Shipping Solutions

BY EA LOGISTICS

Smart, from the start.

SMART, FROM THE START

We create special programs for dozens or thousands of shipments departing at the same time or during a specified time period. This service is ideal for Direct-to-Store Deliveries (DSD) including POP Displays, POS Systems, Fixtures and Signage. EA Logistics provides dependable on-time transportation for shipments to marketers. We specialize in well-planned and executed rollouts to meet marketers' high expectations.

A GOOD LOOKING PARTNERSHIP

We understand the specific demands you face when rolling out a new in-store program. Deadlines are fixed and the shipments need to arrive on-time and damage-free.

When it goes well, you end up looking great. Since EA Logistics provides domestic & international transportation via all modes, complete fulfillment services and has ample warehousing capacity, we are the partner of choice for a smooth rollout and in-store delivery. We have decades of experience and practical know-how to avoid the potholes on your road to success and provide you with a single point-of-contact to keep things easy.

- Synchronized & Timed Delivery
- White Glove Service, Inside Delivery
- Removal of Packaging & Old Display & Disposal or Repurposing
- Timely Reporting To You of Status & PODs

BRIGHT AND EARLY MAKES THE DIFFERENCE

As a marketer, agency or manufacturer, you spend a lot of time, energy and creativity to develop engaging in-store campaigns, programs and messaging that will deliver the best positioning for your brand, create positive experiences for your customers, and ultimately drive profits for your business.

Leaving your shipping solution to the last minute can leave all your best-laid plans in jeopardy.

Engaging a smart logistics partner like EA Logistics early in the process helps ensure a better outcome. From the earliest stage, we take the time to understand variables like changing timetables, manufacturing delays and logistical issues. Our job is to anticipate those variables and construct a shipping plan that is common sense, saves money and delivers with consistency.

EXPERIENCE DELIVERS

With decades of experience, we understand the process. Transportation plays a critical role as it is the bridge between the manufactured display and the in-store presentation to the customer. EA Logistics' Retail Shipping Solutions Team provides a well-honed transportation and warehousing program that is plug-and-play for you. With full communication and daily status reports to keep you up-to-the-minute, you can leverage our expertise and look great.

Shipping does not have to be complicated or risky. Rely on Retail Shipping Solutions from EA Logistics.
